

2018–2019 Data Exchanges for HEDS Member Institutions

HEDS collects and shares institutional data, public data sets, and data from the National Survey of Student Engagement (NSSE). We create interactive data files that allow you to easily form custom institutional comparisons.

HEDS Institutional Data Exchanges

In early September, we will send out a survey that asks primary contacts which institutional data exchanges their institution will participate in this year.

Member institutions submit the institutional data listed in the table below to the HEDS staff. Data will be most useful to HEDS institutions if submitted by the target dates listed.

| HEDS Institutional Data Exchange | Target Date for Data Submission | Time Period When Institutions May Submit Data | How to Submit Data |
|--|---------------------------------|---|--|
| Common Data Set | November 30 | November 1 – March 1 | Email same Excel file submitted to CDS to Ivaylo Mantchev |
| AAUP Faculty Compensation | January 15 | December 14 – March 1 | Email same Excel file submitted to AAUP to Ivaylo Mantchev |
| HEDS Starting Salaries | As early in January as possible | December 3 – February 1 | Qualtrics survey |
| NACUBO Tuition Discounting Study | As early in January as possible | December 14 – March 1 | Qualtrics survey |
| HEDS Tuition and Fees | March 1 | January 1 – June 3 | Qualtrics survey |
| HEDS Deposits | May 5 August 5 | May 1 – June 30 August 1 – August 30 | Qualtrics survey |
| National Study of Learning, Voting, and Engagement | TBD | TBD | Qualtrics survey |

We begin sharing data from the institutional data exchanges once we have information from 10 institutions, and we update our data files weekly as institutions submit their data. We send final versions of the files out soon after each data collection period has ended.

Publicly-Available Institutional Data Sets

We download and format data from public sources and share them with all members. These include:

- **Baccalaureate Origins of Doctorates** – contains overall and discipline-specific data from the WebCASPAR database on the proportion of students that go on to receive PhDs for both public and private institutions. We update this information every three years. The next update will be in 2019–2020.
- **IPEDS** – contains data from the IPEDS Data Center for the universe of U.S. higher education institutions. We distribute IPEDS data files between July and January based on IPEDS's update schedule.

National Survey of Student Engagement

HEDS member institutions have the option of sharing institution-level data from the National Survey of Student Engagement (NSSE).

Contacts

Please contact [Macanda Myers](#) at (765) 361-6492 or [Ivaylo Mantchev](#) at (765) 361-6381 if you have questions about the institutional data exchanges, non-HEDS survey, or the publicly-available institutional data sets.
